Re: Your Case - Caryn E. Campbell

Dear Mike:

The Detroit News on Sunday, April 27, 1975, published an article regarding "Ted the Troller" or "The Messiah" whom we now suspect is the killer of more than thirty women in a six state area, including possibly Caryn Campbell.

Regarding this article, I received a phone call from an informant who stated he had read the article and knew the identity of the suspect killer from the composite drawing that was included in the article. I am enclosing a photograph that was sent to me by the informant of one Stanley James Irving, 26 to 27 years of age, last known address was Chula Vista, California. Mr. Irving was in the U.S. Army stationed at Fort Hood during the year 1970. He received either a bad conduct discharge or a dishonorable discharge. The informant knew Mr. Irving but to be absolutely sure he showed the composite sketch to several other people who knew Irving and they also identified him.

Any other information you require in this matter, feel free to call on me and I will attempt to find out.

Sincerely,

WILLIAM LUCAS
